12 February 1974

MEMORANDUM FOR: Chief, Plans and Programs Staff, OL

SUBJECT : Long-Range Secure-Voice Requirements for OL/PSD

REFERENCE : Memo dtd 6 Feb 74 to Mtple Adrse fr D/L, subject:
Communications Requirements for FY 1976 and
Long-Range Secure-Voice Requirements

1. The following information is submitted per instructions in referent memorandum.
2. Printing Services Division has three internal red lines (7G28, GJ56 and GD79 Headquarters Building) and will continue to need a secure-voice capability in these locations. If the current internal red line is replaced with another type system in the Agency, it should be placed in these areas.
3. The Printing Services Building currently has black lines only. On occasion PSD officials have needed to discuss urgent classified material with its customers. While this has not been a particular problem, it is anticipated that the equivalent of an internal red line will be required by the PSD planning office within five years in the main printing plant.
4. Additional requirements for communications services will be submitted on 19 February 1974.
